"Absolutely superb service!"
Chris Pilkington (Anston Parish Council)

UKLC

UK Local Councils is a platform built to equip parish and town councils with the tools and knowledge required to deliver high quality, online information and services to the communities that they serve.

- UKLC is a technology infrastructure built to join up information and service delivery across the three tiers of local government.
- UKLC facilitates a community of professional local council web authors, working together to share knowledge, experience and best practice to deliver continually improving quality of information and services to their customers.

Designed by clerks, for clerks

Old Bolsover Town Council

"After an intensive search looking at many parish and town council websites, we shortlisted a few developers for further investification. 2commune had the experience, understood our requirements and had the ability to provide a fully functional website at a very competitive price.

Importantly we were able to easily keep the website up to date without requiring any special technical skills. We would have had to pay a lot more to commission a bespoke website with similar functionality." *Andrew Tristram (Town Clerk)*

Ratby Parish Council

"Great service! The site was quick and easy to set up and is very easy to use. We were guided every step of the way." *Linda Fogg (Clerk)*

Ruabon Community Council

"I rapidly became aware that there are very few products on the market that fully satisfy the needs of a busy council. Once you start looking at the functionality in detail they lack a lot of the basic things required. 2commune's product 'UK Local Councils' (UKLC) stands out head and shoulders above the rest." *Helen Belton (Clerk)*

"The technical support we've had over the years has been brilliant"
Dawn Roach (Measham Parish Council)
